We are a growing Organization
In need of an NC Programmer

PRIMARY FUNCTION:

Develop, program, evaluate, troubleshoot, and recommend CNC machine tools, utilizing personal computers, CAM software, and DNC systems.

PRIMARY DUTIES AND RESPONSIBILITIES:

- Review and obtain the required information from tool drawings, fixture drawings, part prints, and associated documents in the development of efficient CNC programs and related materials.
- Work with operators, lead people, supervisors, process technicians, other programmers, and any other area to optimize old and new processes and assist in training of these processes.
- Recommend new or revised tooling, fixtures, equipment, software, and any process improvements to support Viking Pump, Inc. and its customers.
- Conduct special studies, assist on capital research, serve on special teams, and provide support for S.P.C. or other quality initiatives as required.
- Keep supervisor informed of operations, problems, and opportunities as they arise.
- Take positive action to advance personal knowledge of manufacturing technology, CNC programming, CAM software, DNC technology, and related information.
- Maintain appropriate records and documentation to assist in the control and evaluation of programming operations.
- Assist in the development of a safe working environment through the use of occupational safety and health standards, including ergonomic principles.

EDUCATION AND/OR EXPERIENCE REQUIREMENTS:

- High school graduate is required.
- Manufacturing technical degree desirable.
- Varied CNC operating experience desirable.
- Must have worked in CNC programming demonstrating a high degree of proficiency.
- General math, geometry, and trigonometry experience required.

OTHER SPECIAL REQUIREMENTS:

- Requires extensive knowledge of machine processes, capabilities, and resources available.
- Visualization ability required.

COMPUTER SKILLS:

- Proficient with Microsoft Office products including, but not limited to, Word, Excel, and Outlook. Knowledge of computer basics required.

WORK ENVIRONMENT REQUIREMENTS:

- Ability to move within office and manufacturing complex, write by hand and keyboard, and perform general office functions.
- Ability to communicate by speech and hearing via phone and in person.
- Visual acuity needed for close detail work and computer use.
- General manufacturing, warehouse and office environment

ORGANIZATIONAL RELATIONSHIPS

- Must have the ability to effectively communicate with customers, suppliers and all levels of corporate and company personnel
