

Join A Worldwide Leader Today

We are a growing Organization
In need of a Value Stream Specialist

PRIMARY FUNCTION: As part of the Operations Management Team, this position will be the driving force of Value Stream Transformation working throughout the entire Value Stream.

PRIMARY DUTIES AND RESPONSIBILITIES:

- Develop and continuously improve material and information flow or pull processes between operations to meet demand
- Monitor and track value stream performance metrics and trends; conduct daily value stream walks
- Lead creation and maintenance of accurate current state value stream map
- Lead the design and implementation of future state value stream map, involving and mobilizing people inside and outside the operations value stream to enable required changes
- Partner with Production Supervisors to achieve continuous improvement culture.
- Lead Kaizen events in support of Value Stream transformations.
- Reduce value stream lead time and ratio of non-value added time
- Lead and direct cross-functional teams in project execution.
- Apply each of the five Six Sigma phases, Define, Measure, Analyze, Improve and Control to each project.
- Identify barriers and suggest a course of action.
- Determine the most effective tools to apply.
- Train team members in the application of appropriate Lean Manufacturing concepts and tools, and change management.
- Manage projects to established deadlines.
- Advise management on the development and implementation of process improvement plans.
- Share improvement plans with other IDEX business units.
- Enhance the profitability of Viking Pump.

EDUCATION AND/OR EXPERIENCE REQUIREMENTS:

- Four year degree and significant manufacturing management for support experience required.
- Black Belt or Green Belt certification preferred
- Training and experience in Value Stream transformations and Lean implementation is very beneficial.

OTHER SPECIAL REQUIREMENTS:

- Understanding of basic statistics. Use of SPC and 6 sigma tools preferred.
- Excellent communication skills.
- Ability to influence without direct authority.
- Customer service oriented.
- Strong project management skills.
- Ability to manage multiple projects.

COMPUTER SKILLS:

- Proficient with Microsoft Office products including, but not limited to, Word, Excel, and Outlook

How to apply – Qualified individuals may apply by submitting a resume via e-mail to: careers.viking@idexcorp.com, or mailing a paper resume to: HR Department, Viking Pump, Inc. 406 State Street, Cedar Falls, IA 50613

We are an equal opportunity employer. A drug test and criminal background check will be part of the post offer pre employment process.
